## **WHY VIOLENCE AGAINST WOMEN IS ALSO A MEN'S ISSUE**

-  **Men are the main perpetrators of violence**
-  **Men can speak out and intervene when our male friends and relatives insult or attack women.**
-  **Men's partners, friends, sisters and daughters lives are damaged by violence and abuse.**
-  **Men can help create a culture where the behaviour of a minority, who treat women and girls with contempt or violence, becomes unacceptable.**
-  **Men can examine our own behaviour and consider changes which will create a world based upon gender equality**

*To find out more about helping put an end to  
male violence against women contact us at*
