

## WHITE RIBBON CAMPAIGN UK. NEW VOLUNTEERS AGREEMENT.

Although working for the White Ribbon Campaign is very flexible and freedom of creativity is encouraged, we would expect the following to be understood and upheld by both the volunteers and the organisation. This is purely to give you some structure in your placement and make the placement successful on both sides.

### **What is expected from you?**

We expect that you provide 2 references for us to consider in the recruitment process.

We would like you to volunteer for a period of 6 months. You can work with us for less than 6 months but in this case you will not be eligible for a reference.

We will expect that you work under a supervisor for the first month of your placement, just so both the organisation and yourself feel confident in your knowledge of the procedures used by us.

We will expect that you complete a formal leaving form at the end of your placement.

### **What will you get from the organisation?**

We will pay for any out of pocket expenses such as travel expenses where relating to the job, for the duration of your placement. These will not be paid in advance.

After 6 months of satisfactory service you will be eligible for a glowing reference from your volunteer supervisor.

You will also receive ongoing personal development in the form of ongoing training in relation to your role in the organisation.

We will arrange for a full CRB check to be undertaken through Voluntary Action Calderdale after you start your work placement with us.

You will gain access to the volunteers section of our website where you will find links to voluntary bodies, training courses, and other useful information.
